*It has been said that a true wilderness is a place
where the large predators still rule the night.
We have found just such a place...*

AFRICA....If you love wild places, even the name sends shivers of excitement up your spine. It is a place of mystery, ancient traditions, legends and dreams. Tanzania is often called the African hunter's paradise and is considered the ultimate hunting and adventure destination in Africa. Nearly one-third of the country has been set aside as protected wildlife zones in National Parks, Game Reserves, and Game Controlled Areas. This allows for free movement of the vast herds of game. Tanzania's conservation plan provides for tremendous fair chase hunting opportunities that would rival even the early years of traditional trophy hunting in Africa.

Tanzania Adventures Inc.© proudly holds the marketing rights for **Tanzania Wildlife Company, Ltd. (TWC)**, our premier Tanzania safari outfitter. TWC provides first-class big game hunting, wing shooting, and photographic adventures in the traditional East African style, complete with luxury tented camps, skilled staff, and some of the best professional hunters that Africa has to offer. With a firm belief that you never get a second chance to make a good first impression, we are committed to providing the finest African safari experience available.

If what thrills you is spending your days in true wilderness in pursuit of high quality game, with your evenings being catered to in the comfort of a first class camp, we invite you to join us for the safari experience of a lifetime!

THE HUNTING AREAS

Tanzania Wildlife Company, Ltd. owns the hunting rights to five concessions in Tanzania. These areas continue to produce exceptional trophies due to the conservation-minded management policies of TWC.

T A N Z

A N I A

*Tanzania is the ultimate destination
for the adventure seeker.*

- Game Controlled Areas - Hunting Blocks
- Open Areas - Hunting Blocks
- Game Reserves - Hunting Blocks
- Non-Hunting Areas - National Parks
- TWC, LTD - Areas of Operations

LAKE NATRON SOUTH GAME CONTROLLED AREA

Located north of Arusha in the famous, tsetse fly-free Maasai Steppe, this area is bordered on the west by the famous Ngorongoro Conservation Area, and to the north and east by Kenya and Lake Natron, a soda lake teeming with flamingos and other bird life. TWC runs two luxury camps and one adventure fly camp within our Lake Natron South concession. The permanent *Kiserian* camp offers terrific views of Mt. Kilimanjaro and plentiful hunting and viewing opportunities for a majority of East African plains game including Grant's and Thompson's Gazelles, and the highly sought-after Gerenuk and Lesser Kudu. Within the Lake Natron South GCA is Mt. Kitumbeine, a flat-topped formation that towers 9,200 ft above the Acacia studded grasslands. The *Kitumbeine* camp is situated at the foot of this grand mountain and offers spectacular views of the Great Rift Valley below and Oldonyo Lengai, the Maasai people's "Mountain of God," the only active volcano in East Africa. Fringe-eared Oryx and other bountiful plains game species thrive on the grasslands below. Mt. Kitumbeine offers the adventure-seeker a truly unique hunting opportunity. TWC contracts the help of the local Maasai people to transport and erect a fly camp just below the summit of Kitumbeine's peak, where a small quota of buffalo can be hunted in this dense forest preserve in the early morning and late afternoon. Limited hunting is also allowed for the exceptionally big leopards prowling the shadows for the giant bushbuck and bushpig that live near the fully-equipped fly camp. Hunting is done by foot only, as there is no vehicle access past the fly camp.

RUNGWA IKILI GAME RESERVE

This game-rich area is located on the North side of Ruaha National Park in central Tanzania. The *Makwasa* camp is located on the bank of the Makwasa River and within walking distance of the airstrip. Known for its exceptional lion, leopard, and buffalo, this area consistently produces some outstanding

trophies. The Rungwa area has many large antelope species including Eland, Greater Kudu, Sable, and Roan. Smaller game animals such as Reedbuck, Oribi, Grysbug, and Bushpig are also very abundant in Rungwa Ikili, along with many other typical East African plains game species.

SELOUS GAME RESERVE

Three of the TWC hunting concessions are deep in the heart of the 17-million acre Selous Game Reserve; famous for its vast herds of buffalo, elephant, hippo, plains game, and of course the big cats. All of the hunting camps are located in some of the most remote, scenic, and game-rich areas in the Selous and are accessible only by air charter into well-maintained bush strips. There are no people or villages within the whole of the Selous, except the hunting camps and clients who are there on only a seasonal basis. The concessions and camps—**LU4** (Luwego), **MA1** (Madaba), and **U3** (commonly referred to as the Rufiji camp) — produce some terrific dangerous game opportunities for four of the African Big Five, as well as some exciting action with hippo. Some of the monster crocs basking themselves on the banks of the rivers may have been around during the days of Frederick Courtney Selous, the famous hunter-naturalist in whose honor the Reserve was named!

*"I saw a hippo for the first time,
and without a doubt he is the
ugliest and most forbidding
looking brute I have ever beheld."*

Lt. Colonel J.H. Patterson, circa 1907

*Only greenhorns
rough it.*

-Philip Percival, circa 1905

THE CAMPS

Just because you are hunting in remote locations deep in the African bush doesn't mean you have to rough it! All of the camps and staff are designed and trained to pamper you and your family after a day of hunting. Each camp is outfitted with premium-quality hunting equipment, beds, fine linens, bathrobes, and a fleet of 4x4 hunting vehicles, including several new 4-door air-conditioned Toyota Land Cruisers. Our goal is to provide you with virtually everything you could imagine in even the finest hotels! From your morning wakeup call with fresh brewed coffee or tea, to on-demand hot water for showers, daily laundry service, gourmet meals, and a bartender who has your favorite drink ready for you as you step off the safari truck at day's end, the TWC camp staff provides the ultimate 5-star treatment.

All the vehicles are equipped with refrigerated lunch boxes, satellite phones (one stays with the car and one stays with the Professional Hunter), skilled drivers and trackers. Each vehicle has been properly rigged for hunting in the traditional East African safari style. Every camp has spare hunting vehicles available to preclude any loss of hunting time due to mechanical problems. We also have well-maintained, high quality large-caliber rifles and shotguns for rental at each camp along with stocks of ammunition if you choose to leave your personal firearms at home.

WING SHOOTING

As an exclusive safari or an add-on to your big game or photographic adventure, the bird hunting in our Maasailand concession offers both fast-paced action and total relaxation. Your routine might closely follow that of your feathered quarry: Begin your day with an early morning walk-up hunt for francolin, spur fowl and quail as the sun breaches the walls of the Great Rift Valley and the Maasai herd their cattle out onto the plains to graze. Enjoy spectacular photographic and viewing opportunities of the abundant area wildlife on your return to camp for a late brunch. Early afternoon can either be spent relaxing in our luxury safari camp accommodations, or on a driven hunt for guinea fowl. A late afternoon hunt at the waterholes for dove and sand grouse is the perfect end to a day of unsurpassed wing shooting, and will undoubtedly deserve a toast around the campfire!

THE PROFESSIONAL HUNTERS

Our Professional Hunters have a total of over 65 years combined experience guiding in Africa and are hand-picked for their exceptional hunting skills, field knowledge, and positive attitudes toward making every hunt as memorable and successful as possible. They are familiar with TWC Hunting Policies, game laws, the local areas and game; and they follow ethical and sportsmanlike hunting methods. Hunting is done by traditional spot and stalk methods, as well as tracking for mature male animals of trophy quality. Many Professional Hunters and their clients become life-long friends from the partnership they form while on safari. All trophies are properly cared for in the field and are expertly cured, crated, packed, and shipped to the taxidermist of your choice.

LEON LAMPRECHT

Leon's hunting experience as a licensed Professional Hunter spans from South Africa, Mozambique and Tanzania, to Namibia, Botswana,

and Zimbabwe.

Born in South Africa in 1968, Leon grew up in the Kruger National Park and spent much of his early life accompanying his father - a 27 year veteran game ranger - on various problem animal-control and culling operations.

He spent two years national service in the South African Infantry Corps as a Platoon Commander before qualifying as a South African Professional Hunter in 1989. Leon moved to Tanzania and worked as a Professional Hunter for Tanzania Hunting Safaris from 1995 to 1997. He then spent the next two years working for Game Farm in South Africa, re-introducing

Buffalo and Giant Sable, before returning to the field in 2000 as a Professional Hunter in Mozambique for Africa Hunt and Tour, where he specialized in bow-hunting for dangerous game.

Leon joined Tanzania Wildlife Company, Ltd. in 2006 as Managing Director and has done a tremendous job of organizing the team, resources, and conservation plans that have quickly elevated TWC to one of the top African safari companies. He still finds time to guide several groups of hunters each season. Leon and his wife, Christelle - the Client Liaison Officer for TWC - live in Arusha, Tanzania.

NIGEL THEISEN

Born in Durban, South Africa, in 1962, Nigel grew up in Rhodesia/Zimbabwe where his introduction to hunting started at the age of eleven

on annual hunting and fishing trips into the Zambezi Valley. After finishing high school in 1981 he attended the University of Natal for a brief spell studying for a Bachelor of Science degree.

Nigel's professional hunting career began in Zimbabwe in 1982 with a two year apprenticeship under the late Alan Lowe and Fritz Meyer of Va Doma Safaris. In 1985 he guided for Lowveld Hunters in the Matetsi area with Jannie Meyer and Charles Davy. He then went on to manage and hunt the Chete concession on Lake Kariba for Kavija/Karoi Safaris under the late David Masson in 2006.

In 1990, Nigel joined Luke Samaras Safaris in Tanzania, guiding hunts in their concessions in Maasailand and the Selous Game Reserve. He remained with Samaras Safaris until the end of the 2006 season when he joined TWC.

Nigel's remarkable experience and specialty in guiding big game hunting adventures spans over 26 years throughout southern and eastern Africa, including South Africa, Namibia, Botswana, Zambia and the Central African Republic. He holds Professional Hunters licenses in Zimbabwe, Tanzania, and South Africa, is a member of the African, Zimbabwean, and Tanzanian Professional Hunters Associations, and has even been written about in books of African safari adventure stories.

ALISTAIR JAMES

Alistair was born in Maryland, U.S.A. He grew up hunting from a young age in his home state, and got his first introduction to African hunting at the age of thirteen by the Joubert family on their game ranch outside of Bulawayo, Zimbabwe. He returned during his summers to hunt with the family until he finished school in 2001, then moved to Tanzania to start hunting full time. He completed his apprenticeship with Tanzania Big Game Safaris studying under senior Professional Hunters Raoul Ramoni, Franz Coupe, and Johnny Yakas. Alistair has also guided hunts in the Democratic Republic of Congo with R.D. Congo Safaris scouting and trying to reopen safari hunting in that country. Alistair joined TWC in 2006 and is a hard-working PH with an outstanding record of client success and satisfaction.

CRAIG MIDDLETON

Born in 1982 and raised in East London, South Africa, Craig's first experience with dangerous game came during a hunting trip to the

Zambezi Valley at the early age of 13. After matriculating at Selborne College he obtained his Degree in Nature Conservation at Saasveld which is now part of the Nelson Mandela Metropolitan University. Craig then chose hunting as his profession and obtained his South African Professional Hunters License in 2004. In 2005 he completed a year's apprenticeship with Western Safaris in the Chewore South Safari Area, Zambezi Valley. Craig decided to join TWC in 2006 and moved to Tanzania shortly thereafter. He spent his first season as Area Manager for our Ikili block in the Rungwa Game Reserve, and operated anti-poaching operations there in the off-season. Craig obtained his Tanzania Professional Hunters License in 2007 and spent the season guiding successful dangerous and plains game hunts in TWC's Selous blocks as well as managing their LU4 area. Craig's positive attitude and efforts in the field make him a client favorite.

ANDRIES VAN DER WALT

Born in South Africa in 1974, Andries grew up hunting the northern region's Limpopo Valley. After matriculation from school he joined the South African police force and served his country for three years. Andries became a professional hunter in 1997 and freelanced for a number of hunting outfitters in South Africa, Mozambique and Botswana. He has spent two seasons with TWC as a Camp and Area Manager in the Selous Game Reserve, and will put his excellent knowledge of and passion for dangerous game hunting into play as a full time Professional Hunter for the Company in 2008.

PHOTOGRAPHIC SAFARIS

Tanzania Wildlife Company is pleased to offer countless options for our clients who want the experience of photographing East Africa in all its beauty.

Our Lake Natron South area provides an abundance of wildlife viewing and adventure opportunities by vehicle, horseback, or on foot. Immerse yourself in the flow of plains game animals that stream across the Great Rift Valley during the wet season migration, trek to the top of Oldonyo Lengai, the Maasai's "Mountain of God," and view the spectacle of Lake Natron teeming with thousands of nesting Lesser Flamingos. Visit a local Maasai village and learn about the customs and daily lives of these tribal African icons.

We can also organize a custom photo safari package to any of the Northern National Parks within a day's drive or short charter flight from Arusha such as the Ngorongoro Crater, Lake Manyara, and Serengeti, or a private get-away to any of the exotic Tanzanian islands such as Zanzibar.

Accommodations will be in our semi-permanent tented camps, fly camps, or luxury lodges. We will work with you on an individual basis to tailor each adventure to you and your family or group. Photo safaris can be arranged to coincide with the beginning or end of hunting safaris or as an individual package during the non-hunting season.

*"Plan for what is
Difficult while it is
easy, Do what is great
while it is small."*

- Sun Tzu

CONSERVATION

Tembo Foundation & Brittingham Conservation Foundation

As a conservation-minded company and stewards of the local wildlife, TWC feels a deep sense of responsibility to ensure the protection of Tanzania's wilderness. The Tembo Foundation Ltd. (TF) is a non-profit charitable organization recognized by the government of Tanzania, and was established primarily to achieve the goals of wildlife and habitat preservation in Tanzania. As a hunting client, you contribute to the efforts of TF through a surcharge or "conservation fee" placed on the government game trophy fee. This conservation fee or surcharge is not tax deductible. These funds finance year-round anti-poaching operations and various community development projects aimed at facilitating the self-development and education of communities to promote long-term sustainable conservation and the protection of Tanzania's wildlife, and ultimately hunting itself. Additional funding for the ongoing efforts of TF is in the form of donations from clients and outside organizations around the globe.

The Brittingham Conservation Foundation (BCF) is a qualified 501(c)(3) charitable organization created in the U.S.A for the purpose of supporting public charities that are dedicated to wildlife conservation around the world. BCF supports the Tembo Foundation's ongoing conservation efforts in Tanzania. Donations to BCF are 100% tax deductible to U.S. citizens (this is a private foundation within the meaning of Section 509(a) of the Internal Revenue Code).

THE SAFARI EXPERIENCE

There is no finer experience than sharing a safari with your family or friends. We strongly encourage the involvement of family groups in our camps. From the moment you are picked up at the airport, to the minute you are dropped off after your safari, we strive to exceed even your highest expectations. It is our goal to provide you with truly the safari of a lifetime. Whether you've been to Africa a dozen times or only in your dreams, you have yet to experience a safari like this one!
